Enjoy the scenery along the way and if you want to you can stop along the way for some Biltong and dried fruits that you can purchase in some of the farm stalls.

After check-in, it is time to relax in the Bushveld environment.

DAY 3: KRUGER NATIONAL PARK

Today, enjoy a full day private Game Drive. An early start sees you head towards the famous Kruger National Park.

You will stop for breakfast (packed breakfast from the hotel) and for lunch (on own account) in the rest camps inside the park. The Kruger National Park is the most famous national park in South Africa and is the largest wildlife sanctuary, offering one of the best wildlife experiences. The biodiversity is one of its kind in the world. The park is home to 147 mammal species including the "Big Five" (leopard, lion, rhino, elephant, buffalo), as well as approximately 507 bird species, 114 reptile species, 49 species of fish and 34 amphibian species.

Nature takes no holidays, and as such, the Kruger Park provides a year-round destination with each season offering a unique spectacle. Summer rains in November & December provide lush greenery, new-born animals and excellent birding. The dry winter period of April to September provides sparser vegetation which makes for better game viewing. During this period, wildlife congregates close to remaining water sources.

DAY 4: KRUGER REGION - PANORAMA ROUTE

After breakfast, you will embark on the historical Panorama Route, a scenic road in the Mpumalanga Province which features sensational views of breath-taking natural wonders, fascinating rock formations, impressive waterfalls and wonderful fauna and flora.

The most popular stretch of the route is the R532 that winds its way from the town of Sabie via a selection of graceful waterfalls - the Sabie Falls, Bridal Veil Falls, Mac Mac Falls - to God's Window, the Blyde River Canyon, Bourke's Luck Potholes and the three Rondavels.

The first stop will be the famous Three Rondavels - one of the most famous sightings along the Panorama Route. Situated along the third largest canyon in the world you have a fantastic view of the formations as well as a chance to enjoy a walk. The view of the 'Three Sisters' is also known as one of the best in South Africa.

Enjoy the view onto the Blyde River Canyon which is known as the third largest canyon in the world, and the largest green canyon due to its green nature. It offers beautiful panoramic views within 25 kilometres and is home to about 1000 different species of fauna and flora.

The last stop is at Bourkes Luck Potholes. Visit this natural water feature, which marks the beginning of the Blyde River Canyon. Through countless eons the swirling whirlpools which occur as the Treur River plunges into the Blyde River caused waterborne sand and rock to grind huge, cylindrical potholes into the bedrock of the river. The informative visitors centre details some of the interesting natural and socio-historic features and is the starting point of the 700m walk to the potholes.
